

POM-POM KEYCHAIN

Make a fluffy pom-pom keychain for your key ring, or to adorn your bookbag! You can also make pompoms to sew onto to a hat, make a fun garland to decorate your space, or glue some wiggle eyes to make a critter. Share your creations with us on Instagram or Facebook! @shelbytwplib

SUPPLIES:

- Yarn
- Two cardboard tubes
- 2 Card stock or cardboard circles
- Scissors
- Keychain

DIRECTIONS:

1. If using more than one color, knot the ends of the different colored yarns together.
2. Put your index finger and thumb each into a cardboard tube, you should be able to pinch and unpinch your fingers like a crab.
3. Place the yarn between the tubes, and pinch your fingers together.
4. Wind the yarn around the outside of the cardboard tubes. The more yarn you wrap, the fluffier the pom-pom. You will want a lot.
5. Take another piece of yarn (about a foot long should suffice) and work it between the two tubes and tie a tentative knot.
6. Gently push the yarn toward one end of the tube, being careful to hold onto both ends of the yarn you're using to securely tie the pom-pom together.
7. Once the yarn is off the tubes, tie it tight and cut around both edges of the pom-pom (where the toilet paper rolls were previously).
8. Sandwich the pom-pom between the cardstock circles, and trim the excess yarn until you have a nice, fluffy pom-pom.
9. Cut another piece of yarn, about five inches. Thread one end through the keychain, then tie and knot the yarn around the pom-pom, so it is tight and secure. Trim the yarn to match the pom-pom.
10. Enjoy!
