

# Balloon Party Poppers

- 1 regular sized paper drinking cup
- 1 balloon
- Scissors
- Paint, markers, stickers, glitter glue, or whatever you desire for decorating the cup
- Pom poms, marshmallows, or other small objects for popping out of the cup

1. Decorate the outside of your cup however you like.
2. Have a grown up help cut out the bottom circle of the cup.
3. Tie a knot in the balloon at the bottom and snip off the top part just across the top.
4. Slip the balloon securely on around the bottom of the cup where the hole has been cut.
5. Place a few mini marshmallows or pom poms in the cup. Pull the knotted end of the balloon and let go to shoot off your party popper!

You could even try putting a bit of water in the cup for outdoor play, or put some confetti inside to shower someone on a special day.
