# FIRE ALARM AFFIDAVIT

\_\_\_\_\_  
(DATE)

\_\_\_\_\_  
(JOB ADDRESS)

To Whom it May Concern:

"We certify that all fire-protective circuits are electrically or electronically monitored for integrity so that any malfunction of the system, such as an electrical open, a ground fault, or any short circuit fault on the main power supply, signaling line, or alarm-initiating devices or fire safety control circuit, will indicate a visual and audible signal at the alarm panel when proper alarm operation would be prevented." (per Michigan Electrical code part 8, 760-11)
