

AMONG US PERLER BEADS

SUPPLIES:

- Perler Beads
- Peg Board
- Ironing paper
- Key ring or pin backing
- Iron (not included)
- Safety pin (not included)
- Hot glue (not included)

DIRECTIONS:

1. Follow the pattern to make your crew mate. There are exactly enough perler beads to make one.
2. Use the ironing sheet and an iron on a low setting to fuse the beads together. Please refer to the "Never Used Perler Beads?" instructions if you need additional help.
3. For a keychain: While the beads are soft, use a safety pin to make an opening for the key ring.
4. For a pin: after the beads have cooled, use a hot glue gun, or other very strong glue, to glue the pin backing onto the perler beads.
