

CEREAL CATERPILLAR

SUPPLIES:

- Colorful cereal Os
- Two googly eyes
- Pipe cleaner
- Glue
- Paper circle with hole punched in it

DIRECTIONS:

1. Glue a pair of googly eyes to the paper circle to make your caterpillar's head. The hole should be at the top of the head, above the eyes.
2. Thread the head onto the pipe cleaner through the hole all the way to the end where the antennae twist is. The eyes should face out.
3. Thread alternating colors of cereal Os onto the pipe cleaner. You can practice repeating a pattern or choose any color scheme you like.
4. When you get close to the end of the pipe cleaner, have a grown up help to twist it into a little knot at the end to secure the cereal in place.
