

Statement of Special Inspections

Pursuant to Section 1704.1 of the current Michigan Building Code, the owner or the registered design professional in charge acting as the owner’s agent shall employ one or more special inspectors to provide inspections during construction on the types of work listed under Section 1704. The special inspector shall be a qualified person who shall demonstrate competence, to the satisfaction of the building official, for inspection of the particular type of construction or operation requiring inspections.

In accordance with Section 1704.1.1, the permit applicant hereby submits a statement of special inspections prepared by the registered design professional in charge as a condition for permit issuance, as follows:

Project Name: _____

Project Address: _____

Check the materials and work requiring special inspections pursuant to Section 1704:

No materials or work will be undertaken that requires special inspections.

Inspection of fabricators (offsite fabrication of structural load-bearing members and assemblies)

Steel construction (structural steel roof framing, wall framing, beams, columns, etc.)

Concrete construction (concrete footings, precast concrete, etc.)

Masonry construction (load bearing masonry walls, etc.)

Wood construction (fabrication of wood trusses, etc.)

Soils (soil conditions, site preparation, fill placement, etc.)

Pile foundations

Sprayed fire-resistant materials

Exterior insulation and finish systems (EIFS)

Other _____

List the inspections that will be performed and when the special inspection reports will be provided (i.e. – Soils will be tested during foundation operations and reports will be submitted upon completion):

List the individuals, approved agencies or firms intended to be retained for conducting inspections:

Name: _____ Phone #: _____

Type of inspections: _____

Name: _____ Phone #: _____

Type of inspections: _____

Name: _____ Phone #: _____

Type of inspections: _____

Special inspectors shall keep records of inspections. The special inspector shall furnish inspection reports to the building official, and to the registered design professional in responsible charge. Reports shall indicate that work inspected was done in conformance to approved construction documents. Discrepancies shall be brought to the immediate attention of the contractor for correction. If the discrepancies are not corrected, the discrepancies shall be brought to the attention of the building official and to the registered design professional in responsible charge prior to the completion of that phase of work. A final report of inspections documenting required special inspections and corrections of any discrepancies noted in the inspections shall be submitted periodically at a frequency agreed upon by the permit applicant and the building official prior to the start of work.

I understand the special inspection requirements of the current Michigan Building Code and hereby agree to the above listed special inspection process as a condition for permit issuance.
